With a Perfection Oil Heater beside the tub, there's no uncomfortable chill while you "tune-up" the water—no shiver when you step out.

And the first fine stimulus after the bath—the glow of renewed vigor—is increased a hundredfold by the heater's comforting warmth. It's an adventure in pleasure to take a Perfection bath.

The Perfection is economical—convenient—easy to carry. A gallon of kerosene gives eight hours of clean, odorless heat.

Now in use in more than 3,000,000 homes.

The new No. 500 Perfection Heater Wick comes trimmed and burned off, all ready for use. Makes re-wicking easy.

Daisy Baker's Mother Says

It Really Doesn't Take Much Time to Bake at Home

Many women hesitate about baking at home because of the time they think it will take.

The fact is that in these days it doesn't take long at all. Simply use more yeast. It won't taste in the bread if the dough is closely watched and put in the oven at the right time.

With prices the highest in years, you owe it to yourself and family to take the little time necessary to bake at home.

Do your part in saving by cutting your bread cost in two—and give them better bread.

Of course, a lot depends on the flour you use. My favorite is William Tell. It has a delicious natural flavor and wonderful baking qualities. It's made in Ohio—guaranteed under the Ohio Better Flour Label, by the Ansted and Burk Company who make it, and by the grocer who sells it.

Use WILLIAM TELL Flour

The flour of the triple guarantee that takes the ache out of bake and puts the flavor in.

Hastings of Fryeburg some time ago wrote to Chairman Austin that two flocks of the swans had appeared in the vicinity of Kezar Pond and as it is a very rare bird in New England he thought perhaps the State would like a specimen for the museum. Mr. Austin immediately answered, sending a special permit authorizing Mr. Hastings to secure a pair of the swans if possible for the museum and they were received Nov. 5th.

Mr. Hastings wrote that three appeared at the pond on Saturday, Oct. 27 and 13 in another flock on the next day. They were very shy and it required considerable time and skill for the hunter and the warden whom he took with him to get within the proper distance, but that was finally accomplished and the two specimens secured.

They are beautiful birds. The older, a full grown male, is of the very whitest white imaginable, with beautiful plumage. He measures 5 feet, 3 inches from the tip of his bill to the end of his tail, 6 feet, 9 inches from tip to tip of his wings and weighs 15 pounds. The web of his foot measures 7 inches across, at the widest place. He has black legs and feet, with white and black head, the distinguishing mark of the American swan—the tiny yellow spot in front of the eyes—being very plain.

The other is a smaller and younger bird, the plumage being of the slate gray color of the mature bird, though with every promise of bidding fair to be a large and handsome specimen, had he been needed for the museum. He measures 4 feet, 1 inch from the tip of his bill to end of tail and 6 feet, 6 inches from tip to tip of wings, weighing 12 pounds.

The yellow mark in front of the eyes in the American swan distinguishes them from the American swan, which has the yellow in profusion, though in the same location.

The bird, as stated, is very rare in this section, in fact in New England. It breeds in the far North and has for many years little to do with Maine. Chairman Austin and Curator James are both of the opinion that the appearance of so large numbers in this State at this time is largely due to the protection that has been afforded them during passage by the United States migratory bird law, and so far as they know these are the first specimens to be secured in Maine.

Blankets and Robes

Present market conditions indicate that an advance in price is not unlikely for all grades of stable and street blankets and robes. Jobbers stocks are reported to be unusually low and on many leading styles they are entirely sold out. This means a scarcity when retailers present stocks are exhausted, as it will be hard to get the desirable styles.

We have an unusually full stock of stable blankets in burlaps and ducks and in all the different styles of fasteners and sureingles. Prices on these goods are very low, considering their scarcity and the difficulty of getting them. Duck storm blankets in medium and large sizes.

A fine assortment of street blankets, of the best colors, in stripes, plaids and Indian weaves, ranging in price from \$1.50 up to \$6, \$7 and \$8 each. Many of these are in beautiful colors and well worth your examination.

HARKEN BACK ON THE PAST

Twenty-four Years Ago This Week

A club room has been opened in the old building near Tannery brook, which formerly was occupied by A. L. Stetson. E. W. Bartlett, who has been clerking at the Be. B. House, has gone to Island Pond in the employ of the Norway Art Co.

Two hundred new books have been received at the Norway Public Library and they will be ready for distribution the latter part of this week.

For some weeks past several young men of this town have been disputing as to who could go two miles in the quickest time. It was finally decided that they should start in a race at the fair grounds, the loser to pay for a chicken supper. Last Wednesday afternoon, Henry Foster, Lee Smith, Percy Nevers and Lewis Weston, accompanied by timekeepers, pacers and trainers, repaired to the fair grounds and at the word "go" started on their two mile spur.

After going a mile and a half Weston dropped out, but Foster kept on going, coming in first, with Smith second and Nevers third. Time 13 1/4 minutes. Thursday evening last the contestants partook of an excellent game supper at Bodkin's restaurant, at the expense of Nevers.

The following are the officers of the Norway Oil Can Co.:

Pres.—Dr. S. A. Bennett.

Vice Pres.—Arthur Hubbard.

Manager—W. C. Leavitt.

Sec. and Treas.—G. E. Lasselle.

The other members of the company are: H. T. French, G. C. Leavitt, J. W. Nash and Moses P. Stiles. They have commenced the making of cans and will have their agents on the road. The cans are something every family needs and it sells even in these hard times on sight.

Annual Roll Call

The annual church supper and roll call of the Congregational church was held Thursday evening, Nov. 8. At 7:00 sharp, approximately 150 enjoyed a well prepared supper.

Following the supper was the annual business meeting. The work reported was read, followed by the report of the treasurer, H. L. Horne, which showed the balance from last year as \$26.88, credits of \$30.82 during year, disbursements of \$21.87, leaving a net balance of \$35.83.

Following officers were elected for the ensuing year:

Clerk—Arthur W. Easton.

Treas.—H. L. Horne.

Deacon for unexpired term of Horace Sanborn—P. F. Stone.

Deacon for four years—E. N. Swift.

Standing Com.—Mrs. Alice Stearns, Miss Lucy Hall, Ralph S. Osgood, Anna M. Stone, Frank W. Cox.

Calling Com.—Mrs. Hattie Brown, Mrs. Edith Easton, Mrs. Georgia Swain, Mrs. Chas. Davis, Mrs. Geo. Holmes, Mrs. Adna Keene, Mrs. Fred Stone.

Roll call followed the election of officers and was well responded to. Following the roll call Rev. R. J. Bruce offered special prayer for the boys in the government service.

Next in sequence were the reports of the various branches of the church. Mrs. E. N. Swift spoke for the Ladies' Missionary Society and informed the gathering that present constituted membership also that they were an important factor in the payment of the apportionment.

Mrs. R. J. Bruce reported for the Junior Society. Mr. Swift augmented Mrs. Bruce's report and revealed the fact that the children have an accomplished and instructive teacher and that they are receiving admirable training for their more advanced work.

Mrs. Swain reported for the Ladies' Circle, funds raised during year \$500, balance on hand \$50. Brief remarks were made in the interest of the Sunday School by the assistant superintendent, A. W. Easton.

E. N. Swift spoke in a very interesting manner of the financial condition of the church and its executive problems and invited criticism. He wished to dispel rumors that he had heard and stated that the church was in excellent financial condition and gave the figures and facts to prove it.

H. L. Horne was elected to talk in darkness, due to electrical disturbances, and proved equal to the occasion. He spoke interestingly of his reminiscences of the founding of the church.

A very forceful closing address was made by Rev. R. J. Bruce, his theme being, "What constitutes priceless in the things of life." He interwove in his theme the "Popular conception of God," the aims of the church, the collective strength of the church and ended his remarks with an appeal for church attendance and co-operation.

Aubrey E. Pettengill has purchased a farm near Auburn and moved his family there Monday.

Roger learned the shoe business in Norway with the B. F. Spinney Co., but the political game has been acquired since getting into big business.

He remembers us after the recent election with a letter and sample ballots. He tells how it was done and says his candidate for mayor was defeated but he got a good bit of satisfaction out of the result of the Woman's Suffrage vote and says Maine will do likewise later on. No doubt of it.

Bert Hamilton has completed the addition to his work shop and installed machinery with fixings to continue grinding which is done largely for exchange. He is busy mounting and classifying the several hundred moths collected during the past summer, also preparing many thousand moth cards which have been retarded from incubation until the feeding season next summer.

George L. Sanborn's Aladdin cottage is coming along rapidly. The Oxford Electric Co. have it wired for lights and painters are finishing the outside.

Sergt. John B. Shepard, Me. Med. Dept. at Fort Preble, visited his sister, Mrs. Elmer Packard, a number of days. He went to Auburn, Wednesday, where he remained until Thursday, where his parents, Mr. and Mrs. John Shepard, before returning to his duties.

PUBLIC SAFETY MEASURES

New England Cut-a-Cord Campaign

Coal is in great demand all through New England. In spite of the best endeavors of the Fuel Administrator, the supply has fallen far behind the requirements. The situation is serious.

At the present time New England is several million tons of soft coal short of its needs, and while the hard coal supply was reasonably satisfactory two months ago, there was a falling-off during September and October, so that there is not enough now coming forward to meet the increased uses.

Every effort has been and is being made by the Fuel Administrator to facilitate shipments and to secure the economical utilization of the coal received. Many relatively unnecessary forms of use have been curtailed or even eliminated.

The fact remains that the outlook for any improvement in future deliveries for New England is unfavorable, and it has become the duty of the Administrator to advise the public of these facts, and to urge that personal and community prudence and national patriotism require that New England should begin at once to utilize as fully as may be the native cordwood supplies.

At a recent conference of fuel officials, woodland owners, wood dealers, the Grange and others interested, representing all the New England States, the opinion was unanimously expressed that an organized effort should be made without any delay to provide a store of wood sufficient for immediate and future needs.

The reports from the several states indicated positively that the supply of wood now on hand is everywhere short even of normal requirements, and that the wood which appears to be any danger of glutting the market through any cutting activity that may be inaugurated. In view of the likelihood that there will be an even greater stringency in the coal situation in the season, and with the possibility that these conditions may not be materially improved another year, the present or future market for good cordwood bears a most promising appearance.

It was further recommended by the conference referred to above that an appeal should be made to Local Committees of Public Safety in all wood-producing localities, and to County Agents as well, to take an inventory of all available supplies of cordwood stumpage that are situated within a reasonable distance of a market, and to endeavor forcefully to arrange for its cutting and delivery.

It is, therefore, earnestly urged that the Granges and the Farmers' Clubs will immediately take an active part in co-operating with the local committees on Public Safety in this important matter.

This work is being done in Maine under the direction of J. C. Hamlen, State Fuel Administrator.

OLD TIME PRINTER REMINISCENT

Perry Russell, who has a home with his son-in-law, George H. Adams, on Main street, Norway, is an old time printer when case work and the now obsolete Adams elbow jointed press were in their glory.

Mr. Russell was born in Bethel 83 years ago the 30th of last July, the son of Benjamin Russell 2nd and grandson of Benjamin Russell, one of the first settlers in that historic town. His home still stands sheltered by ancient elms on the eastern bank of the Androscoggin river, one mile and the innkeeper station on the road to Middle Intervale. A few rods north is the cellar hole which marks the spot where his grandfather cleared the virgin forest, erected a frame dwelling and reared his family. Today this large farm is owned by Orsan Stanton and has been in their name many years.

Benj. Russell, 2nd, passed away when Perry was a small boy and has a clear recollection of the years following when a settled home-life was not his to enjoy.

When about 15 he was living with his father, who had heard and stated that the church was in excellent financial condition and gave the figures and facts to prove it.

SICK WOMAN HAD CRYING SPELLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.—"I was all run-down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little books and my husband said I should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."—Mrs. AUGUSTUS BAUGHMAN, Box 86, Enhaut, Pa.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

SWEDEN

Dedication of New Bell
Sweden people dedicated the new bell and the church meeting was held in Sweden, Nov. 5th.

Rev. J. M. Frost, District Superintendent Swift, Rev. A. A. Callaghan, Sec. Rev. L. W. Souther were in attendance. This session of the association was being held in connection with the dedication of the new bell presented by Charles Hamlin, formerly of Sweden and almost a life long member of the Methodist church.

The forenoon was devoted to social chat. Then came the dinner. The Sweden people were noted for their good cooks and their hospitality, a fine dinner was served. Everything in the edible line was set before the hungry crowd, who did ample justice and came away filled and praising the fine spread. The dinner was served in the town hall and a large company was in attendance.

After dinner a patchwork quilt was auctioned off by the pastor, Rev. L. W. Souther. It sold for five dollars. It was made of fine print in a pretty design by his wife, Mrs. Souther is blind. The quilt was beautifully made. Many gave ten cents to have their names put on it.

2:00 Devotional Service.....
2:20 Dedication of New Bell, services in charge of Rev. J. M. Frost, D. D. M. Hamlin
Presentation of Bell.....
Mr. Hamlin's speech will long be remembered as one of the finest ever made in that church, and listened to with pleasure by his many friends, calling forth great applause. In his speech he recited a few lines of Cowpers Alexander Selkirk, very appropriately it seemed:
The sound of the church going bell
These valleys and rocks never heard.
This speech was in behalf of his brother, Charles Hamlin.

A letter was read from the donor, C. B. Hamlin by his sister, Elvira Hamlin. A very interesting letter, well read.

The singing was accompanied by a lady organist.

A contribution was taken up of coin at the first part of the services. There was a debt of \$40.00 on the belfry that was cleared by a contribution of bills during the second part. A large amount had been collected during the afternoon.
Special mention should be made of the fine original poem by Mrs. L. W. Souther, "How We Came to Have a Bell."

Dedication of New Bell

Sweden people dedicated the new bell and the church meeting was held in Sweden, Nov. 5th.

Rev. J. M. Frost, District Superintendent, Rev. A. A. Callaghan, Sec., Rev. L. W. Souther were in attendance. This session of the association was being held in connection with the dedication of the new bell presented by Charles Hamlin, formerly of Sweden and almost a life long member of the Methodist church.

The forenoon was devoted to social chat. Then came the dinner. The Sweden people were noted for their good cooks and their hospitality, a fine dinner was served. Everything in the edible line was set before the hungry crowd, who did ample justice and came away filled and praising the fine spread. The dinner was served in the town hall and a large company was in attendance.

After dinner a patchwork quilt was auctioned off by the pastor, Rev. L. W. Souther. It sold for five dollars. It was made of fine prints in a pretty design by his wife, Mrs. Souther is blind. The quilt was beautifully made. Many gave ten cents to have their names put on it.

Program:
Music.....
2:00 Devotional Service..... M. Gerry Plummer
2:20 Dedication of New Bell, services in charge of Rev. J. M. Frost, D. D.
Presentation of Bell..... M. M. Hamlin
Mr. Hamlin's speech will long be remembered as one of the finest ever made in that church, and listened to with pleasure by his many friends, calling forth great applause. In his speech he recited a few lines of Cowpers Alexander Selkirk, very appropriately it seemed:
The sound of the church going bell
These valleys and rocks never heard.

This speech was in behalf of his brother, Charles Hamlin.

A letter was read from the donor, C. B. Hamlin by his sister, Elvira Hamlin. A very interesting letter, well read.

The singing was accompanied by a lady organist.
3:00 Sermon..... Rev. F. R. Welch
Short Special talk to preachers..... Members
4:00 Supper.....
7:30 Song Service..... Rev. G. W. M. Key
7:45 Old fashioned evangelistic services..... Rev. L. T. Johnson

A contribution was taken up of coin at the first part of the services. There was a debt of \$40.00 on the belfry that was cleared by a contribution of bills during the second part. A large amount had been collected during the afternoon.

Special mention should be made of the fine original poem by Mrs. L. W. Souther, "How We Came to Have a Bell."

Royal Baking Powder saves eggs in baking

In many recipes only half as many eggs are required, in some none at all, if an additional quantity of Royal Baking Powder is used, about a teaspoon, in place of each egg omitted.

Try the following recipes which also conserve white flour as urged by the government.

Corn Meal Griddle Cakes

1 1/2 cups corn meal
1/2 cup boiling water
1/2 cup milk
1 tablespoon shortening
1 tablespoon molasses
1/2 cup flour
1 teaspoon salt
4 teaspoons Royal Baking Powder

NO EGGS
Scald corn meal in bowl with boiling water; add milk, molasses and salt; mix well. Add flour, salt and baking powder which have been sifted together; mix well. Bake on hot greased griddle until brown.

(The Old Method called for 2 eggs)

Eggless, Milkless, Butterless Cake

1 1/2 cup brown sugar
1 1/2 cup water
1 cup seeded raisins
1/2 cup citron, cut fine
1/2 cup shortening
5 teaspoons Royal Baking Powder

Boil sugar, water, fruit, shortening, salt and spices together in saucepan 5 minutes. When cool, add flour and baking powder which have been sifted together. Mix well; bake in loaf pan in moderate oven about 45 minutes.

(The Old Method [Fruit Cake] called for 2 eggs)
